ROTARY SURFACE CLEANER

- driveways, drive-thrus
- patios, garages
- concrete sidewalks
- school yards
- factory & warehouse
- restroom floors
- food processing floors
- service stations
- concrete parking lots
- pool decks
- sport courts
- roofs & decks
- loading docks
- tile flooring
- stadiums
- marina docks
- moss & mildew removal

The **Hydro Twister® Series** are industrial flat-surface cleaners that connect to a pressure washer and use a spray bar rotating at a high speed within 1" of the ground. It will clean concrete more consistently than an operator with a wand, with less fatigue, and 10-20 times faster. Hydro Twister surface cleaners can be used with hot water up to 250° on most models for extra stubborn grease or grime, eliminating the need for soap pretreatment in most applications.

The Hydro Twister® Advantage...

- Low Profile Deck: Will go right under benches & machinery
- Low Maintenance: Stainless permanently lubricated & sealed bearings
- Long Life Swivel: Carbide seal withstands high temperature water
- Less Fatigue: Handle is held in place at ideal working angle
- Adjustable Handle: Locate to middle or rear positions or fold down
- Hose is protected inside stainless steel handle (except ANT38)
- Rustproof and heavy duty for daily use

The **ANT20 Convertible** HYDRO TWISTER is handy for cleaning tile, decks and roofs and is ideal for lower output power washers. The seamless 20" composite deck is lightweight and will not become brittle with age and the casters can be removed for operation on uneven surfaces and roofs. Also available in floater style.

With casters: Model# ANT20

Floater style: Model# ANT19

Flip It Over: Model# ANT1N

The **ANT28 Professional** HYDRO TWISTER has a large 28" cleaning path. The all stainless construction outlasts all others in even the harshest of washing conditions. The four casters swivel for free movement while cleaning. The heavy duty skirt protects the spray arm from damage and is lower in the rear to keep your shoes dry. Model# ANT28

The ANT28 Professional

The **Big ANT38** HYDRO TWISTER is a unique surface cleaner with a 38" cleaning path. The impressive size and construction allows the operator to clean a sidewalk in just one pass. This is not for everyone... just the serious flat surface contract cleaners with high output mobile wash skids. Model# ANT38

The **ANT3C Contractor HYDRO TWISTER** is the proven choice for professional surface cleaning with three selections for your cleaning needs. The ANT3C combines a rotary surface cleaner and includes a spot / gum remover and a hydro broom creating an all-in-one portable system. The dual trigger gun control allows you to activate either device simply by pulling the appropriate trigger. By combining three processes into one unit, you will save time and fatigue when cleaning large expanses of concrete, parking lots or other flat surfaces. The secret that makes the Contractor Hydro Twister so effective is the ideal water spray angles and nozzle heights that optimize cleaning power. Model# ANT3C

Caster pivot lock allows the operator to choose to lock casters for use in straight lines or unlock for side-to-side movement

Embedded gum or paint spots are easily removed with the "Six Shooter" spot nozzle

All stainless welded rotary spray arm

Includes integrated water broom to rinse a 28" path and is useful when cleaning asphalt

Choose the Hydro Twister with the deck and nozzle size that accommodates your power washer

Water Recovery Surface Cleaners

The **Twister Vac** is a unique rotary surface cleaner with wash water recovery capability. Imagine how efficient you will clean without the hassle of having to do a final rinse or containing wastewater runoff. Using a Twister Vac with your existing hot water mobile wash skid, you will be able to clean flat surfaces up to 10,000 sq. ft. per hour, plus recover your wash water all in one simple step when you connect to a Hydro Vacuum® recovery system. Available for 22" (#ANTV3) and 12" (#ANT12) cleaning paths and requires minimum 100cfm vacuum source and 2" vacuum hose. Suitable for use on greasy factory floors, concrete parking lots and drive-thru areas, gas stations and garages.

Connect to the PVR for easy recovery and filtration for reuse or discharge
