

### Cold Water: Gas Engine, Portable

The **CPD Series** spot free pressure washer is portable, gas powered, and simple to operate. It is constructed of a rustproof, stainless steel cage frame and matched with industrial duty components to ensure years of operation. A stainless hose reel is integrated into the frame design for quick and tidy hose management. While on the jobsite, the dolly style frame makes it easy to pull up a flight of stairs or lower off a curb while still leaving plenty of room in your pickup for your other tools. The CPD spot free pressure washer is ideal for window, RV, auto, boat, truck, motorcycle or anything else you would like to air dry with a nice spot free finish.
